## Risk Disclosure and Warning Notice

January 2018

## **RISK DISCLOSURE AND WARNING NOTICE**

This Risk Disclosure and Warning Notice (hereinafter, the “Notice”) is provided to you (our Client and prospective Client) in compliance to the Provision of Investment Services, the Exercise of Investment Activities, the Operation of Regulated Markets and Other Related Matters [Law 87\(I\)/2017](#) as subsequently amended from time to time (“the Law”), which is applicable to IFCM Cyprus Ltd (“the Company”).

All Clients and prospective Clients should read carefully the following Notice contained in this document, before proceeding to opening an account in the Company. However, it is noted that this document cannot and does not disclose or explain all the risks and other significant aspects involved in dealing in the Financial Instruments offered by the Company. The Notice was designed to explain, in general terms, the nature of the risks involved when dealing in Financial Instruments on a fair and no misleading basis.

Risk can never be eliminated; buying or selling financial instruments may result in the loss of part or all of your invested funds. It is also important to remember that risk and reward generally go hand-in-hand; the more risk is taken, the higher is the potential reward or loss. Conversely, the lower the risk, the lower the return or loss. Investors need to ask themselves how comfortable they would be facing a short-term loss in order to have the opportunity to make long-term gains. The important thing to remember is that, even if an investment goes down, a loss will only actually be made if it is redeemed at that time. A fall in investment value is only a paper loss until the investment is sold.

### **No Guarantees of Profit**

The Company provides no guarantees for profit or avoiding losses. The Company cannot, promise any specific level of performance or promise that Client’s investment decisions, strategies, will be successful/profitable. Customer has received no such guarantees from the Company or from any of its representatives.

### **Insolvency**

The Company’s insolvency or default, may lead to positions being liquidated or closed out without the Client’s consent and as a result, the Client may suffer losses.

Customer is aware of the risks inherent in trading in Financial Instruments and is financially able to bear such risks and withstand any losses incurred. The Client acknowledges and accepts that there may be other additional risks apart from those mentioned above.
